Education

- 2019–Present Ph.D., Psychology, University of Michigan, Ann Arbor, United States
Dissertation: *Sources of heterogeneity in developing theory of mind: A multimethod perspective*
- 2017–2018 M.S., Psychology, National Taiwan University, Taipei, Taiwan
Thesis: *Neural correlates of theory of mind in typically developing youths and youths with autism spectrum disorder*
- 2012–2016 B.S., Psychology, National Cheng Kung University, Tainan, Taiwan

Research Interests

I focus on social cognition in children and adults via behavioral experiments, neuroimaging techniques, psychometrics and statistics, and computational modeling. Specific topics include the underlying mechanism of theory of mind, the development of theory of mind, and how theory of mind development varies in different social-cultural contexts and diverse samples (e.g., gender, race/ethnicity, social classes, cultures, neurodiverse children).
