You said, “When I pull away, you need to pull me close; And when I push you away, you also need to pull me close.” I am glad that I always follow my heart. I am pleased that you are crazy. I am delighted that I have you in my life. I want to pull you close. Pull us close.

I say you are so special. Because I indeed think that you are so special. I know you just like I was with you in your childhood. You understand me just like you were in my past. Just like you were here with me, hiding together with me under the desk and holding me. When I look at your eyes, I don't just see your eyes. I feel like I can see your heart and soul. When you look at my eyes, I suddenly know that, you are not looking at the polished me, but the true me. 在你面前，所有的偽裝都起不了作用，你看到的是最純淨的我，同時也看到的是，最黑暗的我。所有，真正的我。

I don't know what to say and how to express my appreciation for your support. As I mentioned before, my first thought when I received this email is that — if I let this girl leave me, I am the dumbest person in the world. The thought of being with you forever appears in my mind all the time since then. No one has shown such a large and earnest heart to feel happy about my accomplishments in my life. You are the only one, the only one. I should never miss you. I want to treasure you and cherish you. 我告訴自己，不能讓你只是我生命的過客。第一次覺得，有你這樣的一個人、這樣的你，我必須要去珍惜。

I always feel so happy when I hear of any of your achievements, such as your photos, piano, grad-school application, MAPS, or your writing. All makes me so proud of you. More essential and happier than my own stuff. In particular, when you shared MAPS with me, I felt so warm. All of my thoughts immediately came up. I want to be, and I will be your biggest supporter. I will help and witness you achieve all of your dreams. I want to let you know that I am always here. And indeed, I feel like I am not supporting you. I am supporting us, as a unit. When you are happy, I feel happy. When you make progress, I make progress. 試圖幫忙你一步一步達成夢想的路途中，很自然地感受到，我圓的不只是你的夢，也是我的夢，我們的夢。唯有你我一體，方能完整。

You give me a lot of 'first,' 'a lot of' never, 'and a lot of' forever.' The first time I feel I am healing myself when I talk to someone, is you. The first time I feel I can overcome anything as long as I am with someone, is you. The first time I think I should never miss someone, is you. The first time I think I should definitely marry someone, is you. The first time I think I should be with someone forever, is you. 我知道，身邊有你，你上揚的嘴角、你眼底的溫柔，是我最初和最後的天堂。

I said, “I'll never let you push either yourself or me away, never.” You said, “Never is a big word.” So I said it. Because I don't want to be the dumbest person in the world. 愛你也需要很大的勇氣 — 想念的心裝滿的都是你，我的鋼琴彈奏的都是你，我的日記，寫滿的都是你的名，才發現，你是我的黎明。
